

Practical Orthodontics San Jose Study Club

Date: Sunday, March 15th, 2020

Time: 9am-4pm

Location: Office of Dr. Preeti Kumar

Cedar Dental Care

39275 Cedar Blvd

Newark, CA 94560

Phone: 510-608-5810

From 9 AM to 11 AM, we will observe patients and use patient records to evaluate treatment plans. Feel free to bring a set of records to class for treatment planning and evaluation. Contact me either by phone (218-248-5013) or email (practicalorthodontics@yahoo.com) if you plan to bring records in for evaluation.

At 11 AM, we will move to the Homewood suites (walking distance from Dr. Kumar's office). The rest of the day will include a lecture/typodont session on bite opening. Various bite opening techniques, including bracket positioning, using curves and/or tip backs, and using the overlay intrusion arch wire will be demonstrated. Participants will also have the opportunity to set up and practice these mechanics on typodonts. Achieving ideal overbite can be a frustrating part of orthodontic therapy. By learning these techniques, this frustration can be minimized.

Thanks for considering attending this study club. If you have any other questions, please contact me. I am very excited about this course. I will do my best to make this a valuable continuing education experience.

Sincerely,

Jim Prittinen DDS, USDI instructor and Director, Practical Orthodontics

Cost: \$300.

Instructor: Dr. Jim Prittinen

Credits: You will receive 7 hours of CE credit. Practical Orthodontics is an AGD PACE provider, #217542
